

⚠ Important Health Warning About Playing Video Games

Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; and do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

LURED BY PANDORA'S VAULT

Planet Pandora is a sparsely populated wasteland where the rule of law gets rewritten daily in the smoke of the last gun battle. Civilization consists of small outposts on the fringe of human influence, in an area called the Borderlands. Pandora's one tourist attraction is a mythical Vault packed with fantastic riches, supposedly stashed eons ago somewhere on the planet by an advanced alien culture.

Fortune hunters, corrupt corporate mercenaries and lowlife bandits roam the landscape, searching under every grain of sand for the treasure. Since most intelligent life on Pandora has the occupation of Vault Hunter, society has gone to hell—making the outposts and outback areas damn dangerous. And with hundreds of thousands of weapons at their trigger fingertips, why talk things over when machine gun fire settles disagreements much more effectively.

Think you can find the Vault? Maybe go it alone? You bet you're tough enough.... Keep all that loot for yourself.... Or bring in a few allies to watch your back. Cooperation could be vastly profitable. And it's wise not to be the only item on the menu when a pack of starving skags breaks loose.

You are ready to risk it all. But whether you're a Soldier, Hunter, Siren or Berserker, the real quest is freeing the formidable powers within yourself. Every firefight makes you stronger. Every successful mission pushes your deadly skills toward the next level. The conquest of the Vault is about to unfold and with it—your story.

CREATING PLAYABLE CHARACTERS

CHOOSE YOUR CHARACTER

Get an introduction to the four game characters (← / → or ) on the bus ride. Choose one as your playable character as you arrive at Fyrestone, the first outpost on Pandora.

CLASS ACTION SKILLS & WEAPON PREFERENCES

Each character represents a class of fighter with special weapon talents. Additionally, each possesses Skills, powerful combat techniques that develop as characters gain combat experience. The decisions you make during the quest will create a character that is unique from all others—even those from the same fighter class.

CHARACTERS ALWAYS RETAIN ATTRIBUTES

Your character takes all earned and saved attributes wherever he or she goes. When your character joins a multiplayer game hosted by another player, he or she brings all saved attributes, including level, XP, weapons and loot to that game. All character enhancements earned by your character during that game will be saved.

Note: Plot Mission and Playthrough data in multiplayer games are determined by the Host player.

YOUR CHARACTER STATUS

- 1 CO-OP TEAMMATE** Your teammate's identifying icon and name, shield and health bars, level and Class mod icon.

- 3 HEALTH BAR** Shows your health level. Under attack, each hit decreases the health bar (unless your character carries a shield). When the bar runs down, you begin fighting for your life. You may die, or you may get a second wind, depending on your actions. For an instant respawn while dying, hold **E** or **X**.
- 4 ACTION SKILL ICON & SKILL POINTS** Your Action Skill icon, topped by your current Skill Points, if you have some. If you don't yet have your Action Skill, this section of your HUD will be blank.
- 5 CRITICAL ICONS** Blue icon appears when shield strength level is critical; red icons appears when health level is critical.
- 6 LEVEL / CLASS MOD** Your current level and Class mod.
- 7 SKILL ICON / GAUGE** (Not shown.) Icons appear here depicting your character's Skills, once purchased. When you press **F** or **LB** to use the displayed Skill, the icon changes to a gauge showing the depletion of Skill energy. (Gauge does not apply to Mordecai.) You can use the Skill until all energy is depleted. Skills must cool down after use, delaying their next use.
- 8 COMPASS** Shows normal compass points plus other indicators, described on page 9.
- 9 AMMO** Number on the left indicates rounds remaining in the equipped weapon; when it gets low, press **R** or **X** to reload. Number on the right indicates total rounds in reserve; when this hits zero, change weapons and find more ammo. Icon indicates type of ammo being used.
- 10 GRENADES** Grenades remaining and Grenade mod icon, if equipped.

- 11 **SKILL ICONS** Icons show your Skills currently in force. These icons appear (and the Skills are activated) in battle when you make your first kill. Shortly after the battle ends, the icons vanish, and will reappear after the first kill of your next battle.
- 12 **ATTACK ALERT** Red flashes at edges of HUD indicate direction of incoming attack: Top flashes are frontal attack, bottom flashes are rear attacks; side flashes are lateral attacks.
- 13 **MISSION TASKS** List of tasks for current mission. Checkmarks appear as you complete tasks. When relevant, tasks show a current count (left of slash) and number required to complete the task (right of slash), such as 7 / 8.

CHARACTER SCREEN

This screen gives a quick rundown of a character's weapon proficiencies, ammo levels, cash, current level, XP, shield strength and health. Weapon proficiency increases with use.

CHARACTER POWER

Characters gain strength through battle victories and mission success. As they become ever stronger, the unique Action Skill of each character comes into play, followed by increasingly more powerful skills.

XP Your character's experience. Enemy kills, mission success and Challenge completion increase XP. XP rating reads as two numbers: Current XP on the left, Level Up XP requirement on the right, such as: 5462/8997.

LEVEL A character's Power. Earn XP to level up. Higher level characters have longer health bars, can carry stronger shields and have higher weapon proficiencies to inflict more damage. Leveling up also results in Skill Point awards needed to buy Action Skills. Weapons and upgrades have level requirements.

SKILL POINTS Sometimes when you level up, you receive a Skill Point. Use these special rewards to enhance character skills. You must spend your first point on the Action Skill.

MISSION SCREEN

Your journey to the Vault involves accepting and completing missions. During each mission, you grab loot that includes weapons, ammo, items and more money. Mission success earns you further rewards of cash, items and/or XP.

Find missions by: talking to people who need your services; checking Bounty Boards found throughout Pandora; and listening to your Guardian Angel when she appears with a request.

When you talk to a Pandorian who needs some task performed, the Mission screen appears as you listen. On the Mission screen you can:

- Listen to (or read) someone's pitch to sell you on a mission. If you accept (**ENTER** or **A**), that mission appears under the "In Progress" heading. You can refer back to mission details on the Mission log.

Before deciding to accept a mission, check out the reward on the lower right of the screen, where you can also view the level of difficulty. Accept the mission by selecting the mission name on the right of the screen.

INVENTORY SCREEN

BACKPACK Holds weapons, shields, med kits, mods and other items not yet equipped.

BACKPACK CAPACITY Shows current number of items in the backpack and maximum allowable items. Upgrade your backpack's capacities with a Storage Deck Upgrade (SDU). SDUs increase storage capacity, including backpack capacity, number of equipped weapons, ammo maximums, and grenade count maximums.

EQUIPPED Check your weapon, shield, grenade mod, and class mod slots.

SPECIFICATIONS Highlight an item to view its specs and current market value (if you're thinking of selling it at a Vendor). Highlight two like items such as weapons and press **ENTER** or **X** to compare specifications.

AMMO The top number is how much ammo you have. The bottom number is the maximum ammo allowed for your level.

You agree not to: (a) Commercially exploit the Software; (b) Distribute, lease, license, sell, rent or otherwise transfer or assign the Software, or any copies of the Software, without the express prior written consent of Licensor or as set forth in this Agreement; (c) Make a copy of the Software or any part thereof (other than as set forth herein); (d) Making a copy of this Software available on a network for use or download by multiple users; (e) Except as otherwise specifically provided by the Software or this Agreement, use or install the Software (or permit others to do same) on a network, for on-line use, or on more than one computer or gaming unit at the same time; (f) Copy the Software onto a hard drive or other storage device in order to bypass the requirement to run the Software from the included CD-ROM or DVD-ROM (this prohibition does not apply to copies in whole or in part that may be made by the Software itself during installation in order to run more efficiently); (g) Use or copy the Software at a computer gaming center or any other location-based site; provided, that Licensor may offer you a separate site license agreement to make the Software available for commercial use; (h) Reverse engineer, decompile, disassemble, prepare derivative works based on or otherwise modify the Software, in whole or in part; (i) Remove or modify any proprietary notices, marks or labels contained on or within the Software; and (j) Transport, export or re-export (directly or indirectly) into any country forbidden to receive such Software by any U.S. export laws or accompanying regulations or otherwise violate such laws or regulations, that may be amended from time to time.

However, you may transfer the entire Software and accompanying documentation on a permanent basis to another person as long as you retain no copies (including archival or backup copies) of the Software, accompanying documentation, or any portion or component of the Software accompanying documentation, and the recipient agrees to the terms of this Agreement. The Software is intended for private use only.

TECHNICAL PROTECTIONS. The Software may include measures to control access to the Software, prevent unauthorized copies, or otherwise attempt to prevent anyone from exceeding the limited rights and licenses granted under this Agreement. If the Software permits access to additional online features, only one copy of the Software may access those features at one time (unless otherwise provided in the Software documentation). Additional terms and registration may be required to access online services and to download Software updates and patches. Only Software subject to a valid license can be used to access online services, and download updates and patches. You may not interfere with such access control measures or attempt to disable or circumvent such security features. If you disable or otherwise tamper with the technical protection measures, the Software will not function properly.

USER CREATED CONTENT. The Software may allow you to create content, including but not limited to a gameplay map, a scenario, screenshot of a car design or a video of your game play. In exchange for use of the Software, and to the extent that your contributions through use of the Software give rise to any copyright interest, you hereby grant Licensor an exclusive, perpetual, irrevocable, fully transferable and sub-licensable worldwide right and license to use your contributions in any way and for any purpose in connection with the Software and related goods and services, including the rights to reproduce, copy, adapt, modify, perform, display, publish, broadcast, transmit, or otherwise communicate to the public by any means whether now known or unknown and distribute your contributions without any further notice or compensation to you of any kind for the whole duration of protection granted to intellectual property rights by applicable laws and international conventions. You hereby waive any moral rights of paternity, publication, reputation, or attribution with respect to Licensor's and other players' use and enjoyment of such assets in connection with the Software and related goods and services under applicable law. This license grant to Licensor, and the above waiver of any applicable moral rights, survives any termination of this License.

INTERNET CONNECTION. The Software may require an internet connection to access internet-based features, authenticate the Software, or perform other functions. In order for certain features of the Software to operate properly, you may be required to have and maintain (a) an adequate internet connection and/or (b) a valid and active account with an online service as set forth in the Software documentation, including but not limited to Licensor or a Licensor affiliate. If you do not maintain such accounts, then certain features of the Software may not operate or may cease to function properly, either in whole or in part.
